**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed February 28, 2006 has been entered and fully considered.
2. The claim objection is withdrawn in light of the amendment.
3. The rejection under 35 USC 112, 1<sup>st</sup> paragraph is withdrawn in light of Applicant's persuasive argument.
4. Claims 1, 5-9, 13-18 and 19 are present.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 1, 5-9, 13-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - a. The counter "n" of formulae M-14 - M-17 in independent claim 1 is not defined.

***Response to Arguments***

7. Applicant's arguments filed February 28, 2006 with respect to the rejection under 35 USC 112, 2<sup>nd</sup> paragraph have been fully considered but they are not persuasive.
  - a. Applicant argued that one of ordinary skill in the art would readily understand that the counter "n" in formulae M-14 to M-17 in independent claim 1 simply means any number of repeating units and pointed to the specification at page 6 in support thereof. Applicant also

Art Unit: 1752

submitted a copy of a Material Safety Data sheet of commercial products which correspond to the compounds of M-14 to M-17 in support thereof. The rejection is maintained. The commercial MSDS appears not to define "n" however the Examiner maintains that "n" needs to be defined in the claims of the present invention so that the subject matter is definite and no uncertainty exists. Additionally the commercial MSDS has not been made part of the official record for it was not submitted listed on an IDS.
